PROFESSIONAL SUMMARY

Computer Science in AI graduate with strong communication, troubleshooting, and analytical skills. Skilled at assessing situations, identifying root causes, implementing effective solutions, and delivering positive outcomes through a structured problem-solving approach. Proficient in Microsoft Office and Windows-based applications, with a proactive attitude for providing exceptional end-user support and IT service delivery.

EDUCATION

B.Sc in Computer Science With AI
Sathyabama Institute of Science and Technology
Grade: 72.70/100.00 | May 2026

Higher Secondary - Second Year
Zion Matriculation Higher Secondary School
Grade: 72.17/100.00 | May 2023

RECOGNITION

LINKEDIN RECOMMENDATION

MS. LATHA NATESAN | HEAD OF IT, TN POWER FINANCE CORPORATION

Received a public LinkedIn recommendation during a college placement training program in recognition of strong analytical thinking, technical aptitude, AI-assisted problem-solving capabilities, and the ability to deliver accurate, high-quality solutions.

SKILLS & TOOLS

Microsoft Office Suite

MS Excel, MS Word, MS PowerPoint, MS Outlook, MS Project, and MS Visio

Technical Support

Windows Operating System Fundamentals, Basic Networking Concepts (LAN, WAN, DNS, and IP Addressing), Database Fundamentals, Technical and Software Troubleshooting

IT Support Fundamentals

Problem Diagnosis & Resolution, Incident Analysis, End-User Support Fundamentals, Root Cause Analysis

Core Competencies

Strong Communication Skills, Customer Service Orientation, Proactive Attitude, Analytical Thinking, Problem Solving, Team Collaboration, Adaptability, Attention to Detail, Time Management

Remote Support Tools & Additional Knowledge

Familiarity with Remote Desktop Connectivity Concepts, WebEx, Bomgar, Live Meeting, and Windows Native Remote Support Tools | SQL, Power BI, Power Query, DAX, Advanced Excel, Pivot Tables

PROJECT

FINANCIAL ANALYTICS DASHBOARD

DECEMBER 2025

AI-ASSISTED DEVELOPMENT | PYTHON, PANDAS, FASTAPI, STREAMLIT, PLOTLY

- Designed a personal finance analytics dashboard to track expenses, trends, and savings insights.
- Used AI tools to generate and refine Python and Pandas workflows for data cleaning, aggregation, and reporting.
- Implemented data processing pipelines to produce monthly summaries, top expense categories, and budget analysis.
- Built interactive dashboards in Streamlit and Plotly to visualize spending patterns and category-level insights.
- Reviewed, tested, and modified AI-generated code to improve accuracy and usability.

BUSINESS INSIGHTS 360

NOVEMBER 2025

POWER BI DASHBOARD | POWER BI, SQL, EXCEL, POWER QUERY, DAX

- FY22 performance lacked a unified view across revenue, margin, profit, and forecast accuracy.
- Developed an integrated analytics dashboard to enable leadership to monitor P & L, diagnose losses, and prioritize high-impact customers and segments.
- Designed and deployed a Power BI solution with P & L decomposition, performance matrix, forecast-error tracking (-3.47 M), and customer/segment drill-downs.
- Enabled leadership to identify 500M+ loss drivers, prioritize top 38 Percentage GM segments, reduce forecast variance exposure by 3.47M, and accelerate data-driven decisions across 3.7B in revenue.
